OTTER-basins in reality mission

OTTER-CARGO Type C									
OTTER-CARGO Type C700	300.070	700x700	180		180	80	350x600x60	3.8	7640169015304
Bag Type C700 Plastic coated fabric	300.072								7640169015311
OTTER-CARGO Type C820x620	300.086	820x620	240		240	100	300x780x80	4.3	7640169015380
Bag Type C810x620 Plastic coated fab.	300.862								7640169015397
OTTER-CARGO Type C1230x830	300.083	1230x830	280		280	300	430x740x120	8	7640169015335
Bag Type C1230x830 Plastic coated fab.	300.832								7640169015342
OTTER-CARGO Type C1230	300.123	1230x1230	280		280	450	620x740x120	9.7	7640169015366
Bag Type C1230 Plastic coated fabric	300.122								7640169015373

In principle, OTTER-CARGO-basins need **No Bag**. The way, they are folded positions the handles for a comfortable carrying.

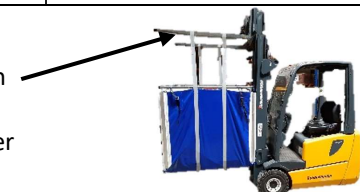

All side walls to be down folded all together or individually.

OTTER-IBC-Basin Type IBC1										
OTTER-IBC-Basin Type IBC1 CARGO	101.111	1230x1020		1050	1050	1000	1300x400x200	20	7640169015502	Without hoisting slings With double layer bottom
OTTER-IBC-Basin Type IBC1 EMERGENCY	101.112	1230x1020		1050	1050	1000	1160x400x300	20	7640169015526	With hoisting slings With triple layer bottom
Bag for OTTER-IBC-Basin Type IBC1	101.001								7640169015519	

**Difference between the two OTTER-IBC-Basins**

The OTTER-IBC-Basin IBC1 EMERGENCY can be hoisted by a forklift using the hoisting slings which are solidly fixed to the basin and the basin may be repurposed to a protective tarpaulin with the size of von 3.45 x 3.25 m. Equipped with triple layer bottom.

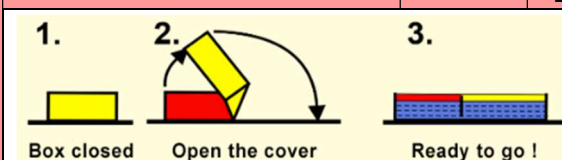

To hoist the OTTER-IBC -Basin IBC1 CARGO it needs to be set on a pallet. Therefore, no pallet trolley can be used. Equipped with double layer bottom.

We realise tarpaulins also customised in size and colours.							

OTTER-Funnel collector Type ST							<p>We realise funnel collectors with any desired length of the hose.</p>
OTTER-Funnel collector Type ST1000	550.011	Schlauchlänge 1200 (grüner Trichterrand bis Schlauchende)		450x280x40	1.2	7640169015809	
Bag Type ST1000 Plastic coated fabric	550.001					7640169016011	
OTTER-Funnel collector Type ST2000	550.012	Schlauchlänge 2200 (grüner Trichterrand bis Schlauchende)		470x300x120	1.8	7640169015816	
Bag Type ST2000 Plastic coated fabric	550.002					7640169016028	

**The OTTER-Funnel collector allows to capture the out flowing liquid directly at the leaking spot.**

**The Pros**

- less environmental pollution
- less expensive cleaning operation

**OTTER-Funnel collectors are compatible with all OTTER-basins.**

Often, too little space does not allow to place a basin underneath a leakage. In that case the liquid can be captured directly at the leakage by the means of our funnel collector and, through its flexible hose, released into the prepared basin.

## Decontamination-Utilities
